Effective Date: February 16, 2018

Last Time Buy: March 31, 2018

Note: Orders May be taken after this date if unassigned stock remains

**Reason for Change:** The Parallel NOR FLASH devices utilized on these boards have gone obsolete and there is no direct replacement.

The supporting Power Modules are being discontinued as well with the exception of the Panasonic version which is still used with the Mini-ITX boards.

**Recommended Replacement:** There are no direct replacements but the PicoZed, UltraZed or Mini-ITX families of products would offer similar functionality.

For customers that have an ongoing need for the EOL products beyond the LTB date please contact your local Avnet sales representative to discuss available options.
